LED DOWN LIGHT SERIES REPLACEABLE LED LIGHT SOURCE

Simple is the best, just like those big lighting companies (Philips, GE, OSRAM, CREE etc) do, AC directly connect led lights will lead the led lighting market without doubt. That's the why we make below our own AC led down light, use new technology to save energy, to save installation time, to save the shipping costs, to save your money etc. More than simple, here we have our own extraordinary unique innovation, which is the replaceable led light source design. Means you can change the led light source easily if there any quality problem happens, no need to change the whole light, no need to break the ceiling, even no need to pull out the down light housing (will show you how it works in below).

We provide 15 years warranty on the down light housing, which have very successfully avoid the energy wasting on the housing itself. Very seldom people ever think about that it takes so many energy to make a lamp housing. In old ways, we choose to throw away the whole failure down light fixture, in our new design AC led down light, clients only need to replace the led light source and the down light housing can be kept.

Greenergy led down light meet CE SAA standards, ROHS complaint.
